This treatment delivers painless extractions and will make your skin glow like never before. Our Hydrafacial treatments will remove impurities while simultaneously delivering hydrating skin solutions, addressing all skincare needs.

No pain, all gain.

CODAGE

Inspired from the Periodic table of elements, our Codage treatments are cocktails of active ingredients that work synergistically to best answer a specific skin need. Combined and dosed, they bring to the skin all essential nutrients to its proper functioning. Each combination of Nutri-Element composes your product formula and builds a code or "codage" in French. Our Codage treatment protocols are fully customisable for a made-to-measure spa experience.

Beauty is a science, Codage is the formula.

SHIATSU

Shiatsu is a form of bodywork therapy. It works on meridians and pressure points to relieve tension and pain, to free any blockage to the Chi flow and restore energy to areas where it is low - just like acupuncture, but without the use of needles. Shiatsu literally means 'finger pressure'; however, a practitioner will use their knuckles, elbows, forearms or knees and sometimes feet during a treatment. These techniques encourage self healing, rebalancing of the body, and the easing of both mental and physical tension.
